SPA MEMBERSHIP

Regarded by many as the crowning achievement of the hotel, The Bulgari Spa in London has curated a selection of the most advanced beauty, grooming and health-enhancing treatments available today, offering the flexibility of one-off specialist treatments to long term life-improvement programmes uniquely tailored to the needs of the individual. This tranquil, spacious and blissfully uncrowded two-storey complex comprises a cutting edge Workshop Gymnasium, steam rooms, saunas, ice fountains, 12 treatment rooms, relaxation room with a beautiful fireplace and a hair and nail salon.

One of the unique features is the 25-metre swimming pool surrounded by Vicenza stone and Italian glass mosaics. In the pool area, there is a separate gold leaf tiled vitality pool with six different water jets to massage the body. Loungers and cabanas surrounding the pool create a relaxing space to enjoy a healthy nutritious fruit platter. There is also a The Private Onyx Spa Suite for two people that has its own dressing room, steam shower, private relaxation room and oversized hydro-massage tub set against a backdrop of spectacular green onyx. All of which offer an urban oasis of experiences that soothe the mind, invigorate the body and revive the senses.

The Bulgari Spa in London is one of the most spacious and exclusive in central London. Crafted from onyx, oak, Vicenza stone and Italian glass mosaics, the Spa blends a contemporary Italian design ethos with the dramatic visual heritage of Bulgari. A limited number of private memberships are available combining bespoke Bulgari treatments with Workshop Gymnasium training and assessment services that are exclusive to The Bulgari Spa in London.

Workshop places a focus on total body conditioning with a holistic approach to training, wellness, health, nutrition and fat loss through its unique Framework assessment; a series of tests including Exercise and Nutrition Genetic Analysis, Food Intolerance Testing, Metabolic Testing, Comprehensive Hormone Profile, Functional Movement Screen and Body Composition Analysis. Workshop marks the return to a gym's core values and at its heart is an invigorating workout to achieve optimal health and visible results.
