

**BVLGARI**  
HOTELS & RESORTS  
MILANO

The Bulgari name has long been associated with the ideals of exquisite design, fine craftsmanship and an exclusive sense of style. Now these same qualities are newly translated in the Bulgari Hotel, set in the beautiful Brera district of Milan.

The Hotel has great presence, articulated by its soft tones and geometric forms in wood, marble and granite. Originality and warmth embrace the rooms and suites, the simple ease of the lounge, the convivial and spacious restaurant and bar. And nature is part of it – in the garden, in the spa, in the cuisine.

With all its carefully conceived facilities and services, the Bulgari Hotel, Milano is giving new expression to the Italian flair for innovation and tradition.

## Reception

Through the cool white façade, you are welcomed into an impressive space with high windows overlooking the entrance court. From here the interior unfurls – elevated ceilings, intriguing spaces, granite columns, teak panels – a feeling that is both monumental and personal.

## Garden

First cultivated 700 years ago, the gardens are integral to the spirit and balance of the Hotel. Gentle greens and dark stone are designed and composed with form, light and shade. With its architectural detail, this is almost another room – for eating, drinking, relaxing, wandering.

### **Bar and Restaurant**

At the heart of the Hotel the extensive bar faces out to the gardens, with the restaurant stepped back behind. This is a great sociable space, high and wide, bold yet subtle, where wines, cocktails and fresh Italian cuisine are enjoyed as much by Milanese society as the Hotel's cosmopolitan clientele.

## Lounge

For pausing, talking, reading, meeting, the lounge is light and contemporary – thoroughly comfortable in its detail and arrangement. The tone is complemented by a changing display of distinguished contemporary art. During cooler months, the open fireplace blazes warmth to the whole room.

## Rooms

Behind massive doors, quiet colours and neutral shades of fabrics contrast with darker tones of furnishings and marble. The effect is calm and distinctive. Ample vestibules and closets provide all the right space in the right places. There is the very latest technology, including plasma-screen TVs, for communications and entertainment.

## Bathrooms

The rooms have bathrooms of warm intimacy and high style, with black Zimbabwe marble complemented by soft Navona travertine. Every facility and luxury is provided, including exclusive Bulgari toiletries.

## Suites

The design of the suites is assured and contemporary – with alluring touches of tradition. Bedrooms have new interpretations of the four-poster bed; bathrooms are pure finesse and indulgence. The sitting rooms have their own balconies overlooking Milan's historic Brera district. An ambience of quiet intimacy and luxury prevails.

### Bulgari Suite

The Bulgari Suite is like a rooftop urban villa in its sophisticated use of natural materials. The sitting room and library area, with its a massive Brera stone fireplace, extends into the dining room. Bedrooms are impressively restful. The glazed bathroom has a great stone bath tub as its sculptural centrepiece. An open air colonnade runs the full length, with lofty views of the gardens and the city beyond.

### Spa and Gym

Gorgeous, fragrant, warm and relaxing. The touch of hands is inspired by techniques from the Orient and Bali. Adjacent is the fully equipped gym for toning and cardiovascular exercise. A wonderful pool of gold and emerald mosaic provides complete serenity. Health and beauty become a single sense of spiritual well-being.

### **Boardrooms**

For meetings and private functions, these confidential spaces are designed to concentrate the mind on the business in hand. Fully equipped with communications and presentation systems, and furnished with style and confidence, they epitomise the detail and character of Bulgari service.

## Location

The Bulgari Hotel, Milano, is located right by the city's Botanical Gardens, founded in 1774 for pharmacy and medical students, and later an exotic plant garden under Napoleon. It is next to the famous shopping rectangle of Montenapoleone and Via Spiga, and close to the historical Duomo and La Scala.
