

BVLGARI
HOTEL MILANO

The BVLGARI Hotel Milano is situated in Milan's most prestigious shopping and cultural area, the Montenapoleone district. It is an unexpected oasis of exclusive tranquility immersed in the frenzy of the city centre. Designed by architects Antonio Citterio and Partners, in line with BVLGARI's bold and contemporary style, the hotel features rare and precious materials which create new combinations of surfaces and surprising chromatic harmonies.

The garden, first cultivated 700 years ago, is integral to the spirit and balance of the Hotel and is composed by three main areas: Vimini area, The Isole di Ghiaia and the Gazebo, which is a unique setting for private dinner and events.

The 58 rooms, which include 11 suites, are all extraordinarily bright, thanks to ample windows looking out onto the beautiful garden or an exclusive Milanese courtyard, thus offering guests an unexpected sense of tranquility in the center of Milan. The furnishings and décor create a refined yet welcoming atmosphere, an expression of the constant attention to detail for which BVLGARI is famous. Precious materials like teak and oak give each room a feeling of warmth and intimacy.

Following openings in Beijing, Dubai and Shanghai, the three-Michelin-starred Chef Niko Romito has now brought his acclaimed Il Ristorante back to where it all began: Bvlgari Hotel Milano. Chef Niko has created his own concept around contemporary Italian cuisine, using traditional techniques and ingredients in order to build a canon of modern Italian cooking in which flavour is foremost and the essence of “Made in Italy” comes through in every element. The bold and trend setting style of Il Bar, with its informal but impeccable approach to service is the meeting place for hotel guests and for Milanese, and became famous worldwide for the original and dynamic Italian aperitif.

The Bvlgari Spa is a unique space, a recently renovated gem, where ultra-contemporary design creates a play of contrasts with traditional treatments and rituals, a veritable refuge for body and mind. Among the highlights is the swimming pool with pure gold tiles, the mosaic-lined hammams, the Swedish sauna, the outdoor Jacuzzi, three private cabins and an exclusive suite for couples.

The Gymnasium Workshop, at the Fitness Center, created in London by the trainer of the stars Lee Mullins, is a program based on a unique and highly innovative approach to fitness, which focuses not only on the body, but also on wellness and quality of life.
