Chef Niko has created his own concept around contemporary Italian cuisine, spending two years studying traditional techniques and ingredients in order to build a canon of modern Italian cooking in which flavour is foremost and the essence of "Made in Italy" comes through in every element. This streamlining of classic methods in pursuit of an ingenious new paradigm is at the heart of the menu, so that guests are taken on an exceptional culinary journey that includes Niko's signature dishes such as 'Antipasto all'Italiana' and recodified versions of the traditional Lasagna, veal Milanese, Potato Ravioli with Red Prawns and Squids, and Tiramisù.
